## Artist Statement/Learning Statement Suggestions:

The impact of your written statement can be nearly as important as the work itself. Please give some thought to the expressive qualities that you have explored in the work. You can also mention the formal qualities, media and technique. Mentioning expressive ideas such as appreciation of the beauty, symbolism in the work the social issue addressed in the genre painting or the personal feelings portrayed in the self-portrait, etc. are what your audience will relate to. Know that officials in the statehouse do look at the artwork and read these statements. Please make sure the subject matter and description is appropriate. Let's not offend anyone. Remember that advocacy is essential in our exhibit!
